

STONHARD *Solutions*

Stonhard Solves Tough Floor Problems and Transforms Machine Plant into Customer Showroom

Products used at Baker Hughes

• Stonclad GS • Stonkote GS4

Baker Hughes, one of the largest oil field services companies worldwide, has operating facilities in over 90 countries; including the United States. As a top tier company, each operating facility is expected to uphold stringent standards of quality, cleanliness and appearance.

As a company who prides itself in delivering solutions that offer excellent return on investment, it is clear why they chose Stonhard, the world leader in seamless floor, wall and lining systems for their Houston, TX machine shop renovation.

The existing substrate became worn and damaged from decades of heavy equipment, machine oil exposure and constant forklift traffic. Facility management knew they needed a durable floor that will hold up to the abuse of forklift traffic, heavy machinery and tools, and resist oil, chemical spills and staining; while maintaining a world class appearance and functionality.

Stonhard installed an oil penetrating primer due to the oil containment of the concrete. Heavy texture was also utilized for safety and quality purposes. Stonhard also provided mois-
